County sportsmen who opposed the open season claimed the deer population in Adams county does not warrant the killing of doe and spike bucks. They claim that the killing of antierless deer here will seriously deplete the county deer herd.

Why will food prices go up if the anti-trust lawyers win their suit to put A&P out of business? Here is just one of a number of reasons:

We manufacture many of the quality foods we sell in our stores, such as Bokar, Red Circle and Eight O'clock coffees, Ann Page foods, White House milk and many others.

Because this saves us money we are able to pass along these savings to our customers in the form of lower prices.

The anti-trust lawyers have asked the court to order us to get rid of our manufacturing facilities. which would put an end to all these savings.

Make no mistake about it. If the anti-trust lawyers succeed in putting A&P out of business, you will find your food bill is higher.

More concerned than perhaps any other group are Pennsylvania Republican members of the House. They express fear they'll be forced right smack into the middle in a fight they don't want anything to
